FORE RUNNER™

FORERUNNERBLINDS.COM

Fore Runner™ Portable Hunting Blinds are covered by one or more patent pendings.

The Fore Runner™ Blind is the first, patent pending, portable soft-sided blind. Designed to survive harsh late season elements and to be extremely user friendly, the Fore Runner™ Blind sports the largest windows in the industry giving you the best shot possible. When you need to move the blind there is no need to worry about fiberglass rods or hubs to collapse. Simply lower the wheels on the aluminum frame and move it. Light enough to move by hand but does comes with a standard 2" receiver*.

To move your Fore Runner™ Blind,
simply lower the wheels and move it!*
